SUMMARY

M.Tech IT graduate building applied AI systems across NLP, predictive analytics, retrieval, and LLM agents. Combines model integration and evaluation with FastAPI services, explainability, and AWS/GCP deployment.

TECHNICAL SKILLS

Applied AI: NLP, RAG, Multi-Agent Systems, Semantic Search, Classification, Anomaly Detection, SHAP

Languages & Frameworks: Python, TypeScript, SQL, PyTorch, Scikit-learn, XGBoost, LangChain, LangGraph

Delivery: FastAPI, REST APIs, Streamlit, FAISS, ChromaDB, Ollama, AWS Lambda, GCP Cloud Run, Docker, Git

SELECTED PROJECTS

Iris | Local Visual Activity Agent [Link]

TypeScript, React, Express, SQLite, Chrome Manifest V3, Ollama

- Built a Chrome extension, authenticated local API, and React dashboard for user-controlled browser sessions and optional local vision-model classification.
- Implemented privacy-scrubbed events, idempotent ingestion, SQLite persistence, retention controls, and schema validation of Ollama outputs.

TRACE | Academic AI and Analytics [Link]

Python, FastAPI, Scikit-learn, FAISS, ChromaDB, SHAP, Streamlit

- Built a 15-component pipeline for semantic grading, confidence scoring, anomaly detection, dropout-risk classification, and RAG-based resource matching.
- Integrated OCR, multi-model consistency checks, SHAP explanations, and human approval thresholds; won the Data Science Conference Hackathon.

JanSeva AI | Multilingual RAG Welfare Assistant [Link]

TypeScript, Gemini, RAG, AWS Lambda, API Gateway, S3, CloudFront

- Built a multilingual RAG assistant over 3,400+ government schemes, grounding responses in eligibility, benefits, required documents, and application details.
- Integrated conversation history, retrieved context, dynamic form generation, and scheme-specific field extraction; deployed the application serverlessly on AWS.

Neural Consensus Engine | Multi-Agent AI System [Link]

Python, LangGraph, Gemini, FastAPI, GCP Cloud Run

- Orchestrated Creative, Logical, and Ethical LLM agents in parallel, with a synthesis stage that compares outputs and produces a consensus response.
- Built FastAPI services, configurable prompts and temperatures, and workflow visualization; deployed on GCP Cloud Run.

EXPERIENCE

University of Hyderabad | Teaching Assistant - Web Development (IT) Lab | Jan - Jun 2026

- Guided students on project design and full-stack application development; recommended GenAI tools for specific project needs, suggested improvements, and supported project evaluation.

University of Hyderabad | Teaching Assistant - Java OOP Lab | Jul - Dec 2025

- Designed lab questions, evaluated student work, and guided students through Java object-oriented programming concepts and debugging.

EDUCATION

University of Hyderabad | M.Tech, Information Technology | 2024 - 2026 | CGPA: 8.68

Modern Education Society College of Engineering | B.E., Computer Engineering | 2019 - 2023

Honors in AI/ML | B.E. CGPA: 8.85

ACHIEVEMENTS

Data Science Conference Hackathon: Winner (2026) | AI4Bharat AWS Hackathon: Finalist | SuperRR Selection Hackathon: Top 36 of 500+ participants (2025) | Finalist in 10+ hackathons held across India.
