

Prathamesh Nikam

Hyderabad, India | +91 7249725186 | prathmeshnikam2208@gmail.com
https://prathmesh333.github.io/ | https://github.com/Prathmesh333
https://www.linkedin.com/in/prathamesh-nikam-89b614210/

Technical Skills

Languages: TypeScript, JavaScript, Python, Java, SQL, C++
Web & Software: HTML5, CSS3, Node.js, REST APIs, FastAPI, VS Code Extension API, Webview API
ML/AI: PyTorch, TensorFlow, Scikit-learn, XGBoost, LangChain, Ray
Concepts: OOP, Asynchronous and Event-Driven Programming, Data Structures & Algorithms
Cloud, Data & Tools: GCP, Firebase, Docker, Git, MySQL, SQLite, MongoDB, Linux

Projects

VSFeed - VS Code Extension | *TypeScript, JavaScript, VS Code API, Webview API*

<https://marketplace.visualstudio.com/items?itemName=PrathameshNikam.vsfeed>

- Published a developer productivity extension with **500+ downloads** across Visual Studio Marketplace and Open VSX; implemented in-IDE browsing, shortcuts, history, workspace state, and focus controls.

CanIPlay - Network Gaming Compatibility Tool | *JavaScript, HTML, CSS, Firebase*

<https://caniplay-web.web.app/>

- Built and deployed a responsive Firebase application that evaluates whether online games are playable under a user's current connectivity and network restrictions.

HQDE - Distributed Ensemble Learning Framework | *Python, PyTorch, Ray*

<https://pypi.org/project/hqde/>

- Published a Ray-based distributed ensemble framework with parallel training, prediction fusion, adaptive quantization, and fault-tolerant aggregation; evaluated it on MNIST, CIFAR-10, and SVHN.

Neural Consensus Engine | *Python, FastAPI, Gemini, GCP Cloud Run*

<https://github.com/Prathmesh333/Neural-Consensus-Engine>

- Built a multi-agent consensus pipeline with specialized Gemini agents, FastAPI endpoints, GCP Cloud Run deployment, and interactive execution-flow visualization.

F1 Race Position Predictor | *Python, Scikit-learn, XGBoost, Pandas, Gradio*

<https://github.com/Prathmesh333/F1-Race-Prediction>

- Engineered an XGBoost pipeline from **1000+ races** using qualifying, sprint, driver, and historical features; exposed predictions and model evaluation through Gradio.

Experience

The Sparks Foundation

Apr 2022 - May 2022

Android Developer Intern

Remote

- Developed an Android banking application with transaction workflows, SQLite persistence, XML interfaces, and modular application design.

Suven Consultants and Technology Pvt. Ltd.

Mar 2022 (3 weeks)

Machine Learning Intern

Remote

- Developed an IMDb sentiment-analysis pipeline using NLP preprocessing, supervised learning, and model evaluation.

Education

University of Hyderabad (UoH)

2024 - 2026

M.Tech - Information Technology

Hyderabad, India

Modern Education Society College of Engineering

2019 - 2023

B.E. Computer Engineering (Honors in AI/ML); CGPA: 8.85

Pune, India

Hackathons & Achievements

- Data Science Conference Hackathon - Winner (2026):** Built TRACE for AI-assisted grading, academic analytics, and early identification of at-risk students.
- AI4Bharat AWS Hackathon - Finalist:** Built JanSeva AI, a multilingual voice and RAG assistant for government welfare access.
- SuperRR Selection Hackathon (2025):** Ranked **Top 36 among 500+ participants** with an IPL player-selection and bidding strategy.
- Smart India Hackathon (2025):** Developed a crowd-management platform with virtual queues, live monitoring, and predictive analytics.
